

RSK

FOR
COMPETITIONS

SYNTHETIC TWO STROKE CASTOR-OIL FOR COMPETITION

① Lubrificante a base sintetico-ricinata ad altissime prestazioni per motori 2 tempi da competizione.

EXCED RSK è il risultato degli studi più avanzati sulla lubrificazione dei motori a 2 tempi e dell'esperienza acquisita sui campi di gara.

Se ne consiglia l'utilizzo per la preparazione manuale della miscela.

Raccomandato esclusivamente per applicazioni da corsa.

② Very performance lubricant for 2-stroke race engines chiefly made of synthetic castor oil.

EXCED RSK is the result of the most advanced studies about the 2-stroke engines lubrication and about the experience made on race field.

Its use is recommended for the manual preparation of the mixture.

Recommended only for Hi-RPM racing applications.

API TC+/TSC3

BOXES OF:
- 20 bottles of lt.1

**LUBRICATING SYNTHETIC
GREASE FOR
COMPETITION CHAINS**

RS eX-Treme Chain Lube

RS eX-Treme Chain Lube is a lubricant composed of oils and synthetic additives with high features of adhesiveness, of penetration and lubrication to the most extreme conditions. Thanks to his exceptional resistance to the centrifugal strength and to high temperatures, it is recommended for the lubrication of the chains of kart and for competition motorcycle.

INSTRUCTION:

Shake the bottle well and apply on the parts to be treated after having carefully cleaned them. Wait some minute before getting down in track.

FOR PROFESSIONAL USE

WARNING:

Bottle under pressure. Protect from sun beams. Don't expose to a temperature higher than 50°C. Don't bore or burn the bottle either after the use. Don't spray on flame or incandescent body. Use in a well windy place. Don't spray in eyes. Keep out of children reach.

S 23 DON'T BREATHE THE VAPORS

BOXES OF:
- 12 bottles of ml.400

**WHITE GREASE
HIGHLY PENETRATING
AND ADHERENT**

RS Grease

RS GREASE is a lubricating grease made of selected oils to elevated adhesiveness, extremely waterproofer, with centripetal effect and high power of penetration. Formulated for the lubrication of industrial gears and of fast cycled-chains and under high pressure, RS GREASE possesses an exceptional solvent that penetrates the articulations of chains and gears, bringing with it the resins of TEFLON that, polymerizing with the metal, assures its lubrication even in bounds conditions of use.

Thanks to the exceptional lubricating, penetrating, adherent, anti-attrition, anti-wear and anti-extension qualities, it is recommended for the general and industrial lubrication, self-traction with specific use in the lubrication of chains of kart and competition motor-cycles.

INSTRUCTIONS:

Shake the bottle well and apply on the parts to treat after having cleaned them carefully.

FOR PROFESSIONAL USE

WARNING:

Bottle under pressure. Protect from sun beams. Don't expose to a temperature higher than 50°C. Don't bore or burn the bottle either after the use. Don't spray on flame or incandescent body. Use in a well windy place. Don't spray in eyes. Keep out of children reach.

RS 40 WD_{ater} D_{ispersant}

- UNBLOCKS • LUBRICATES
- CLEANS
- POLISHES • PROTECTS

WATER PROOFER: Thanks to its considerable adhesion, RS 40 penetrates humidity and water recovering any surface. It eliminates humidity from electric contacts, sparm plugs, ignition system, control units, coil ignitions etc.

CHARACTERISTICS - Created to:

- Penetrate, unblock and lubricate works, locks, slides, Bowden cables, shock absorbers, etc.
- Eliminate the creakings.
- Clean and remove oils, greases, tars.
- Protect from rust, corrosion, intense cold.
- Lubricate precision instruments.

USE TO:

- Lubricate and clean precision works, weapons, blocks, etc.
- Unblock bolts, articulations, shock absorbers, joints, links, packings, bushes, pulleys.
- Eliminate marks of grease, felt-tip pen, glue, tar, limestone, etc.
- Clean and protect metals; It is essential for KART, MOTORCYCLE, BICYCLE, CHROMIUM PARTS, NAUTICAL MOTORS.
- Remove limestone and to prevent every part in touch with water from it.

Innocuous for varnish, plastic and rubber.

INSTRUCTIONS:

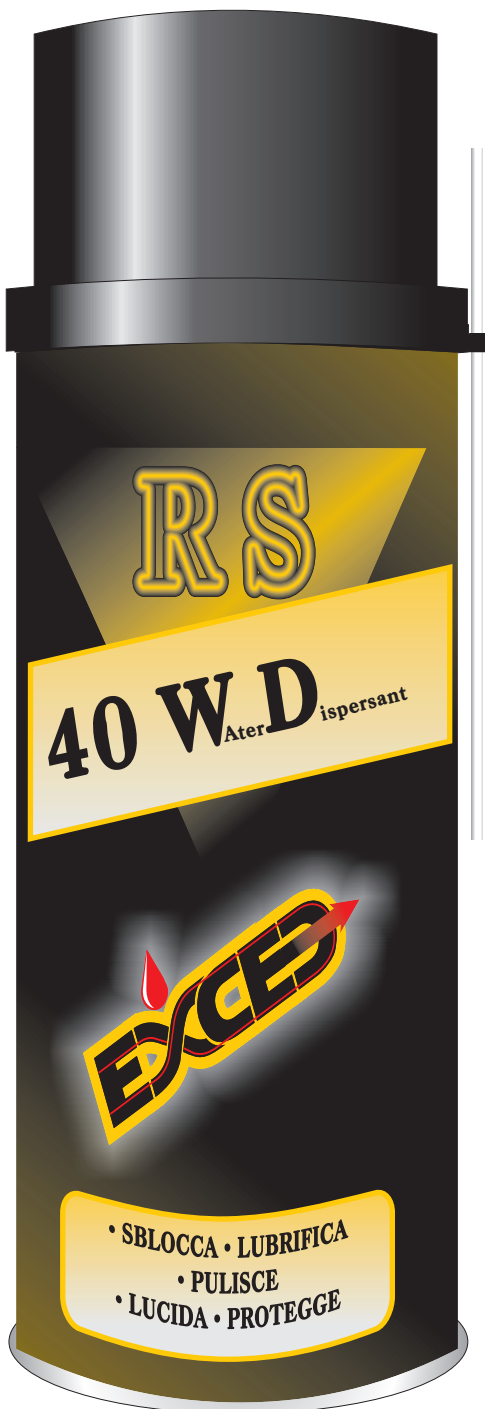

Spray directly on the part to be treated and leave it work for some minutes. Use the straw at your disposal to reach the most difficult parts.

WARNING:

Bottle under pressure. Protect from sun beams. Don't expose to a temperature higher than 50°C. Don't bore or burn the bottle either after the use. Don't spray on flame or incandescent body. Use in a well windy place. Don't spray in eyes. Keep out of children reach.

RS Brake

DETERGENT FOR BRAKES

① RS BRAKE è stato studiato per la pulizia dei freni a disco e a tamburo e dei gruppi frizione dai residui di grasso, olio, catrame, liquido freni, sporcizia e dal consumo delle pastiglie. Non attacca gomma materie plastiche e parti verniciate.

ISTRUZIONI PER L'USO:

Agitare bene la bombola prima dell'uso. Vaporizzare direttamente sulla superficie da trattare. La notevole pressione di erogazione facilita l'azione sgrassante di RS BRAKE.

Ⓞ RS BRAKE has been created for the cleaning of disk and drum brakes and clutch components from the residues of grease, oil, tar, brake fluid, dirt and from the brake pad consumption. Does not attack rubber, plastics and varnish.

USE:

Shake well the bottle before use. Spray directly on the part to be treated. The considerable pressure of distribution facilitates the RS BRAKE action of removing grease.

WARNING:

Bottle under pressure. Protect from sun beams. Don't expose to a temperature higher than 50°C. Don't bore or burn the bottle either after the use. Don't spray on flame or incandescent body. Use in a well windy place. Don't spray in eyes. Keep out of children reach.

**ECOLOGICAL
CLEANING FOR CHAINS**

RS CLEANER

① **PRODOTTO STUDIATO ESPRESSAMENTE PER LO SGRASSAGGIO E LA PULIZIA DI CATENE CON E SENZA O-RING.**

È un solvente ecologico con principio attivo naturale a base di Terpene d'arancia studiato per la pulizia e lo sgrassaggio di tutte le superfici: metallo, plastica, superfici verniciate, alluminio anodizzato, ecc.

Scioglie sporco, grasso, olio, catrame, colla, ecc., e lascia le superfici pulite e asciutte.

Non intacca gli adesivi.

MODALITÀ D'IMPIEGO:

Agitare bene la bombola prima dell'uso.

Vaporizzare direttamente sulla superficie da trattare. La notevole pressione di erogazione facilita l'azione sgrassante di RS CLEANER.

② **PRODUCT CREATED JUST FOR THE REMOVING OF GREASE AND THE CLEANING OF CHAINS WITH OR WITHOUT O-RING.**

It is an ecological solvent with natural active principle made of orange Terpene studied for cleaning and removing grease from all surfaces: metal, plastic, varnished surfaces, anodized aluminium etc.

Dissolves dirt, grease, oil, tar, glue etc, leaving the surfaces clean and dry.

Doesn't remove adhesives.

USE:

Shake well the bottle before use. Spray directly on the part to be treated. The considerable pressure of distribution facilitates the RS CLEANER action of removing grease.

WARNING:

Bottle under pressure. Protect from sun beams. Don't expose to a temperature higher than 50°C. Don't bore or burn the bottle either after the use. Don't spray on flame or incandescent body. Use in a well windy place. Don't spray in eyes. Keep out of children reach.

**LUBRICANT FOR
FAST-CYCLED
CHAINS**

RS Super Chain

SUPER CHAIN is a lubricant made up of selected oils of high adhesiveness, extremely waterproofer, with centripetal effect and great power of penetration. Created for the lubrication of fast-cycled chains under high pressure. Once the solvent is evaporated, a substantial lubricating film, greatly oily and highly adherent, remains.

Thanks to the excellent lubricating, penetrating, adhering, ante-friction, ante-wear and ante-stretching qualities, we recommend its use for the lubrication of the chains of kart and racing motorcycle.

INSTRUCTIONS.

1. Clean the chain with EXCED LUBRI WD or KARTWASH.
2. Shake well the bottle and spray **SUPER CHAIN** on the chain to be treated.
Preserve the bottle upturned.

WARNING:

- * Bottle under pressure.
- * Protect from sun beams.
- * Don't expose to a temperature higher than 50°C.
- * Don't bore or burn the bottle either after the use.
- * Don't spray on flame or incandescent body.
- * Keep out of children reach.

BOXES OF:
- 25 bottles of ml.400

RS PULIKART

DETERGENT FOR THE CLEANING OF THE KART

① E' un prodotto innovativo, creato per la pulizia generale dei kart.

RS PULIKART sgrassa e deterge da olio, grasso, gomma e sporco in generale il telaio, il motore e le parti in plastica in modo efficace e veloce con una semplice applicazione.

Sgrassa pulisce e lucida tutte le parti in alluminio.

ISTRUZIONI PER L'USO:

Spruzzare con l'apposito erogatore sulle parti da detergere, lasciare agire per qualche minuto, quindi asciugare con un panno asciutto o lavare con acqua.

Ⓒ DETERGENT FOR THE CLEANING OF THE KART

It is an innovative product, created for the general cleaning of karts. RS Pulikart degreases and cleans from oil, grease, rubber and dirty in general the chassis, the motor and the parts in plastics in effective and fast way with a simple application.

Removes grease, cleans and polishes all the aluminium surfaces.

USE:

Spray with the special distributor on the parts to clean, leave to act for some minute, therefordry with a dry cloth or clean with water.

BOXES OF:

- 16 bottles of ml.500
- box of lt.10 (with two distributors)
